

MAP & TAX LOT INFO IS REQUIRED ON ALL SCAPPOOSE PERMITS

NOTE; The assessors tax-map-lot-numbers have multiple standards which you might see on their website or your tax statements. For example, all the following formats are for the SAME property;

3212-042-01600
321204201600

3212-DB-01600
3212DB01600

3N2W12-042-01600
3N2W1204201600

3N2W12-DB-01600
3N2W12DB01600

The first 4 or 6 digit #/alpha in yellow represent **township & ranges** (some have directional "N" "W" and some without).

The middle 2 or 3 #/alpha highlighted in blue represent the **map page**, occasionally a pre & post dash "-" exist plus an additional pre "0" might exist. In addition, there is/was a standard to convert these middle numbers to alpha or visa-versa; 1=A, 2=B, 3=C, 4=D.

The last 5 numbers are always the **lot number**; additional "0" are added to the front of the lot number if they are less than 5 digits. For example, lot# 1600 will become 01600.

**Questions/issues;
~ Call the Columbia
County Assessor.**

It will populate a list of all matching house numbers within Scappoose, then you can just select from that list if several are found.

NOTE: Less is more, so do NOT type in a STREET NAME as it can be more difficult as some numbered streets could be “1st Street” or “FIRST STREET” or “FIRST” or “1st”.

And “EJ Smith” is actually “E (space) J (space) Smith”.
