

# City of Scappoose Newsletter ~ June 2020

## Utility Bill Hardship Program

The Scappoose community, like many communities across America and the World, are suffering from the social, mental, health and economic hardships that are being triggered by the battle with the COVID-19 pandemic. Due to the devastating impact that the COVID-19 pandemic has had on our community, the City of Scappoose is offering a program that will help those affected.

The City is proposing to assist those individuals who have recently lost their jobs, or who own a small business that has had to close their doors to the public because of the Governor's Executive Order No. 20-12. Our plan is to offer a onetime credit of up to \$100 applied to their Utility bill for any individuals who after March 13, 2020, lost their job, or to a small business that has had to close due to the virus. Citizens can download an application from our website or contact the City at 503-543-7146 x221 for an application to be mailed to them. Once received, the City will determine if the applicant is eligible and notify them of our decision.

This program is not available to reimburse any payments that have already been received. Each applicant who is approved will have a onetime credit of up to \$100 applied to their Utility Bill. This program expires on June 30, 2020.

### City Meetings Calendar

- \* City Council meeting ~ June 1 & **22 (please note date)**, starting at 7:00 pm

## City of Scappoose Sidewalk Repair Program

There are numerous areas of Scappoose where existing sidewalk deterioration has resulted in trip hazards, impassable pedestrian paths, or are at the end of their useful life cycle. Sidewalks provide mobility for pedestrians, and connection to our schools, parks, business and home. Scappoose Municipal Code Chapter 12.04 states that the owner(s) of land adjoining any street in the City shall be responsible for maintaining and repairing sidewalks when they are present.

To help residents offset the cost of sidewalk repair, the City has initiated a new program to cover 50% or up to \$1,000 of the cost of repairs, whichever is less, as long as a program application is submitted and the repairs pass inspection and are satisfactory to the City. A right of way permit specific to sidewalk repair work is integrated with the application and may be obtained at no cost prior to construction. This program is based on available funds and are therefore provided on a first come, first served basis. While several property homeowners have applied, there are still funds available to assist additional applicants.

**The Sidewalk Repair Program application is available here:**

<https://www.ci.scappoose.or.us/community/page/sidewalk-repair-program-information>

Some examples of sidewalks that have been seen as a part of the applications that have been received:

## Portland Community College (PCC) Updates

There are new signs of progress in PCC's plans to bring expanded education and workforce training to Columbia County. Late last month, construction crews tilted up the first of several walls to the new PCC OMIC Training Center, located just off West Lane Road.

The new PCC Training Center is designed to serve the Columbia County community and provide students and job seekers with the education and training needed to pursue careers with economic mobility.

"These are difficult times, and we're working hard to ensure that the PCC OMIC Training Center will be part of our community's response to a changing economy," said Andrew Lattanner, Director of the Training Center.

Located in close proximity to OMIC R&D, the 31,000 square foot facility will be home to an advanced manufacturing training center with programs, including machining and welding, as well as classroom space for general and community education.

Construction of the PCC OMIC Training Center will continue through the remainder of the year, with an anticipated opening of Spring of 2021.

### **Watts House Information**

The Watts House will remain closed until the end of May/first part of June.
