

## **Resolution No. 18-07**

### **A RESOLUTION AMENDING THE CITY OF SCAPPOOSE'S SYSTEM DEVELOPMENT CHARGES FOR TRANSPORTATION SERVICES**

**WHEREAS**, the City of Scappoose System Development Charge (SDC) Code (Scappoose Municipal Code (SMC) Chapter 13.24), provides for the establishing of SDCs upon completion of an analysis of capital improvements already constructed and projected capital improvements to be constructed and adoption of a methodology explaining how the SDCs are calculated; and,

**WHEREAS**, the SMC Chapter 13.24.030 (B) specifies that such charges shall be set by separate Resolution of the Scappoose City Council following a public hearing; and,

**WHEREAS**, the Oregon Revised Statutes (ORS) provide the framework for establishing an SDC, and for notification and public hearing of the City of Scappoose's intent to impose SDCs; and,

**WHEREAS**, the Scappoose City Council has adopted a Transportation System Plan (DKS Associates, September 6, 2016) which includes a list of completed and proposed capital improvements which affect SDCs; and,

**WHEREAS**, the City's current schedule of transportation SDCs consists of a reimbursement fee, improvement fee, and administration fee; and,

**WHEREAS**, the City concludes it is appropriate to charge a transportation SDC based on PM Peak Hour Vehicle Trips (PMPHVTs), consistent with the methodology used in the 2016 Transportation System Plan; and,

**WHEREAS**, the City has prepared the methodology and schedule of SDCs by PMPHVT (Transportation System Development Charge Update, June, 2017, Donovan Enterprises, Inc.), and made part of this Resolution as Exhibit A; and,

**WHEREAS**, the City provided 90 days' notice to interested persons of the proposed change to the methodology and made the methodology available at least 60 days prior to the public hearing, as required by ORS 223.304(7); and,

**WHEREAS**, the Scappoose City Council has determined the methodology and rates hereinafter specified and established are just, reasonable, and necessary.

**NOW, THEREFORE BE IT RESOLVED,**

**Section 1: Amendment and updating of transportation SDCs.** In accordance with SMC Chapter 13.24, this Resolution establishes the methodology and provides the basis for a transportation SDC that consists of a reimbursement, improvement, and administration fee.

**Section 2: Scope of amendment and update of transportation SDCs.** The SDCs established by this Resolution are separate from, and in addition to, any other applicable taxes, fees, assessments, or charges, including but not limited to SDCs, which are required by the City of Scappoose or represent a condition of a land use or development approval.

**Section 3: Methodology.** The methodology for the transportation SDCs is described in the attached Exhibit "A" and, by this reference, hereby made a part of this Resolution.

**Section 4: Fees and charges.** The City amends and updates its transportation SDCs as described in the attached Exhibit "B," hereby made a part of this resolution.

**Section 5: Effective Date.** This Resolution shall become effective upon its adoption by the Scappoose City Council.

**Section 6: Review.** This Resolution may be reviewed at the pleasure of the City Council, and the rates may be amended as appropriate.

**Section 7: Repeal transportation portion of current fee Resolution 17-22,** as shown by Exhibit 1, and rescind current FY 17-18 rates for Transportation SDCs with the new rates effective immediately.

**PASSED AND ADOPTED** by the City Council this 16<sup>th</sup> day of April, 2018 and signed by the Mayor and City Recorder in authentication of its passage.

## Introduction

The City of Scappoose conducts periodic updates to its Comprehensive Plan and its various Public Facility Plans to provide orderly and sustainable growth of local roads, water, sewer, stormwater, and parks. A key component to funding these public facilities is the system development charge (SDC) program. SDCs are one-time charges for new development—designed to recover the costs of infrastructure capacity needed to serve new development. This section describes the policy context and project scope upon which the body of this report is based. It concludes with a non-numeric overview of the calculations presented in subsequent sections of this report.

The city's current schedule of SDCs for transportation were last reviewed in July of 2005. In September, 2016, the City completed the task of updating the capital improvement plan (CIP) for the transportation system. With the preparation/adoption of the new transportation CIP and Transportation System Plan (TSP), the City commissioned this update of its transportation SDCs to get the methodology and rates current. With this review and update, the City has stated a number of objectives:

- Review the basis for transportation charges to ensure a consistent methodology;
- Address specific policy, administrative, and technical issues which had arisen from application of the existing transportation SDCs;
- Determine the most appropriate and defensible fees, ensuring that development is paying its way;
- Consider possible revisions to the structure or basis of the charges which might improve equity or proportionality to demand;
- Provide clear, orderly documentation of the assumptions, methodology, and results, so that City staff could, by reference, respond to questions or concerns from the public.

This report provides the documentation of that effort, and was done in close coordination with City staff and available facilities planning documents. The transportation SDC update complies with City municipal code section 13.24.

Table 1 gives a component breakdown for the current and proposed residential equivalent SDCs for transportation. Appendix A to this report shows the detailed calculations that were used to arrive at the proposed SDCs for transportation collection and treatment services.

and planned/future capital facilities that serve the developing property. Statute further provides the framework for the development and imposition of SDCs and establishes that SDC receipts may only be used for capital improvements and/or related debt service.

The methodology used to determine the improvement fee portion of the SDC must consider the cost of projected capital improvements needed to increase system capacity or level of performance. In other words, the cost of planned projects that correct existing deficiencies or do not otherwise increase capacity would not be SDC eligible. The improvement fee must also provide a credit for construction of a qualified public improvement.

Finally, two cost basis adjustments are potentially applicable to both reimbursement and improvement fees: fund balance and compliance costs.

**Fund Balance** - To the extent that SDC revenue is currently available in fund balance, that revenue should be deducted from its corresponding cost basis. For example, if the city has transportation improvement fees that it has collected but not spent, then those unspent improvement fees should be deducted from the transportation system’s improvement fee cost basis to prevent charging twice for the same capacity.

**Compliance Costs** - ORS 223.307(5) authorizes the expenditure of SDCs on “the costs of complying with the provisions of ORS 223.297 to 223.314, including the costs of developing system development charge methodologies and providing an annual accounting of system development charge expenditures.” To avoid spending monies for compliance that might otherwise have been spent on growth-related projects, this report includes an estimate of compliance costs in its SDCs. All estimates of compliance costs in this report are based on historical transfers from the appropriate SDC fund to the General Fund.

## SDC Methodology

The essential ingredient in the development of an SDC methodology for transportation services is valid sources of data. For this project, the consultant team has relied on a number of data sources. The primary sources have been the adopted 2016 TSP and plan updates for these municipal facilities. We have supplemented these data sources with City utility billing records, certified census data, and other documents that we deemed helpful, accurate, and relevant to this study. Table 2 contains a bibliography of the key documents/sources that we relied upon to facilitate our analysis and hence the resulting SDCs.

Table 2 - Data Sources for the Calculation of Transportation SDC

Service	Master Plan Document and/or Corroborating Source Documentation
Transportation	<ul style="list-style-type: none"> <li>• Transportation System Plan for the City of Scappoose; September, 2016; DKS Associates.</li> <li>• 2016 Scappoose Transportation Facilities Plan Amendment and Capital Improvement Plan Update; September, 2017; DKS Associates; Angelo Planning Group.</li> <li>• Scappoose transportation system fixed asset schedule; June 30, 2016; City records.</li> <li>• City of Scappoose Utility Billing System – active utility accounts and Equivalent Dwelling Units in service report; December 31, 2016.</li> <li>• Portland State University, College of Urban Affairs, Population Research Center; Certified census for Scappoose, Oregon; June, 2016</li> </ul>

driven” method, and has relied on the capital improvement plans that are incorporated in the 2016 TSP, and plan updates for transportation services.

For this SDC methodology update, the improvement fee represents a proportionate share of the cost to expand the systems to accommodate growth. This charge is based on the capital improvement plans established by the City in the master plans for transportation services. The costs that can be applied to the improvement fees are those that can reasonably be allocable to growth. Statute requires that the capital improvements used as a basis for the charge be part of an adopted capital improvement schedule, whether as part of a system plan or independently developed, and that the improvements included for SDC eligibility be capacity or level of service expanding. The improvement fee is intended to protect existing customers from the cost burden and impact of expanding a system that is already adequate for their own needs in the absence of growth.

The key step in determining the improvement fee is identifying capital improvement projects that expand the system and the share of those projects attributable to growth. Some projects may be entirely attributable to growth, such as a new street to serve a developing area. Other projects, however, are of mixed purpose, in that they may expand capacity, but they also improve service or correct a deficiency for existing customers. An example might be an intersection that both expands transportation collection system capacity and corrects a chronic capacity issue for existing users. In this case, a rational allocation basis must be defined.

The improvement portion of the SDC is based on the proportional approach toward capacity and cost allocation in that only those facilities (or portions of facilities) that either expand the transportation system capacity to accommodate growth or increase its respective level of performance have been included in the cost basis of the fee. As part of this SDC update, City Staff and their engineering consultants were asked to review the planned capital improvement lists in order to assess SDC eligibility. The criteria in Figure 1 were developed to guide the City’s evaluation:

## Methodology for the Granting of Credits, Exemptions, and Discounts

### SDC Credits Policy

ORS 223.304 requires that credit be allowed for the construction of a "qualified public improvement" which is required as a condition of development approval, is identified in the Capital Improvement Plan, and either is not located on or contiguous to property that is the subject of development approval, or is located on or contiguous to such property and is required to be built larger or with greater capacity than is necessary for the particular development project. The credit for a qualified public improvement may only be applied against an SDC for the same type of improvement, and may be granted only for the cost of that portion of an improvement which exceeds the minimum standard facility size or capacity needed to serve the particular project. For multi-phase projects, any excess credit may be applied against SDCs that accrue in subsequent phases of the original development project. In addition to these required credits, the City may, if it so chooses, provide a greater credit, establish a system providing for the transferability of credits, provide a credit for a capital improvement not identified in the Capital Improvement Plan, or provide a share of the cost of an improvement by other means.

The City has adopted a policy for granting SDC credits, and has codified this policy in the Scappoose Municipal Code (SMC) §13.24.110. The adopted SDC credit policy consists of four (4) items as follows:

- A. The city may grant a credit against the SDC, which is otherwise assessed for a new development, for any qualified public improvements(s) constructed or dedicated as part of that new development. The applicant bears the burden of evidence and persuasion in establishing entitlement to an SDC credit and to a particular value of SDC credit. The credit provided shall be only for the improvement fee charged for the type of improvement being constructed and shall not exceed the improvement fee even if the cost of the capital improvement exceeds the applicable improvement fee.
- B. A change in use results whenever a building permit is issued to expand an existing structure or construct a new structure on a parcel of land which had an established use of all facilities upon the effective date of the ordinance codified in this chapter. When such a change of use occurs, a system development charge is imposed, but credit shall be given for all systems charge portions of the computed system development charge in an amount equal to what would otherwise be the charge for the existing structure and use. The credit so computed shall not exceed the calculated systems development charge. No refund shall be made on account of such credit.
- C. Credit shall not be transferable from one development to another, but may be transferred from one phase of a development to another phase of the same development. Credits shall be used within a period of ten years from the date the credit is given.
- D. Credit shall not be transferable from one type of capital improvement to another.

### Partial and Full SDC Exemptions Policy

The City may exempt certain types of development, from the requirement to pay SDCs. Exemptions reduce SDC revenues and, therefore, increase the amounts that must come from other sources, such as user fees and property taxes. As in the case of SDC credits, the City has articulated a policy relative to partial and full SDC exemption. This SDC exemption policy is codified in SMC §13.24.100, and is as follows:

## Transportation SDC Model Summary

The 2017 transportation SDC methodology update was done in accordance with Scappoose Municipal Code Chapter 13.24, and with the benefit of adopted capital improvement plans and plan updates for transportation services. We recommend the City update the SDC charge and methodology to reflect the current capital improvement program. Our analysis indicates the City can charge a maximum of \$1,954 per PMPHVT. To charge the appropriate SDC, the City must estimate how many PMPHVTs will be generated by the development in question. That number can then be multiplied by \$1,954 to determine the amount of SDC owed by new development projects.

The number of PMPHVTs that a property will generate is a function of the increase in scope and scale of activities that will occur on that property. By “scope of activities,” we mean land use. For example, a new single-family residence will generate trip-ends differently from a new retail store of the same size. By “scale of activities,” we mean some measure of quantity. For residential land uses, the number of dwelling units is an appropriate measure of scale. For many commercial and industrial land uses, building floor area is the best measure. For example, a 20,000-square-foot store is likely to generate twice the number of trip-ends as a 10,000-square-foot store of the same type. Table 6 presents proposed transportation SDCs per unit of scale for several land uses in the 9th edition of Trip Generation Manual, published by the Institute of Transportation Engineers (ITE):

ITE Code	Land Use	Total Trip Ends	Diverted/Linked Trips	Pass-by Trips	Diverted/Linked and pass-by Trip Adjustment	Primary Trip Ends	Improve.	Reimb.	Compliance	Total SDC	Basis for Calculating a Customer's SDC
<b>Lodging (Land Uses 300-399)</b>

**RESOLUTION NO. 17-22**

**A RESOLUTION ESTABLISHING ALL FEES AND CHARGES FOR THE CITY OF SCAPPOOSE AND RESCINDING RESOLUTION NO. 16-12**

**WHEREAS**, the City of Scappoose wishes to ascertain and recover costs from providing City services, and

**WHEREAS**, the City Manager has caused a review of all City fees and charges and determined the cost for such services; and

**WHEREAS**, Scappoose Municipal Ordinances 563, 565, 566, 579, 634, 724, 725, and 731 gives the Council authority to adopt fees by resolution, now therefore

**THE CITY COUNCIL RESOLVES AS FOLLOWS;**

- Section 1. The Administrative Fees attached as Exhibit "A" incorporate all administration fees, and rates for fiscal year 2017– 2018 and are hereby adopted.
- Section 2. The Police Fees attached as Exhibit "B" incorporate all police fees, and rates for fiscal year 2017– 2018 and are hereby adopted.
- Section 3. The Court Fees attached as Exhibit "C" incorporate all court fees, and rates for fiscal year 2017 – 2018 and are hereby adopted.
- Section 4. The Community Development Fees and Public Work Fees attached as Exhibit "D" incorporate all community development fees, public work fees, and rates for fiscal year 2017 – 2018 and are hereby adopted.
- Section 5. The fees and charges adopted herein shall become effective July 1, 2017 and shall continue in effect until revised. All fees and charges inconsistent with this resolution are rescinded.

**PASSED AND ADOPTED** by the City Council of Scappoose and signed by me, and the City Recorder in authentication of its passage this 19<sup>th</sup> day of June, 2017.

**CITY OF SCAPPOOSE, OREGON**
