Small Business Spotlight

Sushiro Ramen Cafe

33608 E Columbia Ave., Ste. 120
Scappoose, OR 97056
(503) 793-0298

Hours: Sunday - Thursday 10:30 am - 8 pm, Friday and Saturday 10:30 am - 9:00 pm

From food cart success to their own brick and mortar, Sushiro Ramen Cafe has established themselves in the heart of Scappoose's downtown core! Serving delicious sushi, ramen, poke, and more, Sushiro is a great local option for lunch if you're in town during the day or a family dinner out after a long day for everyone. With the convenience of both dine-in and takeout options, you can grab a bite to eat and then walk right over to Heritage Park, Scappoose Library, or any of the other small business establishments downtown.

Sushiro holds happy hour with special pricing every day from 2:30 - 4:30 (dine-in only). They look forward to continuing to serve delicious food to the community so give them a try the next time you're hungry for some sushi!

Fall Leaves & Storm Drains

WHAT IS A STORM DRAIN?

Storm Drains are typically covered by grates with slats located near the edge of a street, see images below. These drains collect rain/storm water to help prevent localized flooding in the area. Stormwater pipes can lead to nearby collection basins, drywells, or to the city's stormwater drainage system. Not all city streets have a storm drain. Collection basins and wet-wells hold the stormwater until the ground can absorb it, in heavy rain events they can reach capacity quickly or if not maintained/cleaned properly.

YOU CAN HELP PREVENT LOCALIZED FLOODING ON YOUR STREET

• DON'T BLOW OR RAKE LEAVES ONTO THE ROADWAY

Blowing or raking your leaves onto the street is not permitted. The city's street sweeper is not able to sweep large piles of leaves as it causes equipment failures; your section of street could be skipped if large piles are in the street/roadway. Leaves on the street could also flow to a nearby storm drain and clog the drain preventing it from working properly.

• RAKE LEAVES AWAY OR OFF STORM DRAINS

Keeping the storm drains or catch basins free of excess debris ensures they work properly to prevent localized flooding in the area. City & County crews work to keep all the storm drains clear, but with thousands of drains within Columbia County, a little help could go a long way and could help reduce property damage caused by localized flooding.

WHAT SHOULD I DO?

- Check storm drain grates frequently to make sure they are free of leaves & debris.
- Do not remove grates from the drain opening – this does not unclog the system & creates a hazard.
- Rake leaves & yard debris away from storm drains near your property and/or business.
- Help keep leaves & yard debris off the street.

If you noticed severe flooding on your street, call the city at 503-543-7146.

TIPS FOR PROPER LEAF DISPOSAL:

- Dispose leaves in a compost bin
- Mulch leaves w/ lawnmower to spread on your garden or flowerbeds for winter nutrients
- Order a Waste Management yard-waste container 1-800-808-5901 <https://www.wmnorthwest.com/columbiacounty>
- Take your leaves to the following locations:
 - ♦ **Columbia County Transfer Station** 503-366-2613 (call for rates; an average truckload = 2-3 yards)
 - ♦ **Scappoose Community and Senior Center** @ 33342 SW Meadow Dr. (off SW 4th); will take leaves for **FREE** as compost on their community garden; leaves only, –NO grass clippings –NO garbage –NO branches or trees.
